The background is a vertical painting of a boat on a body of water. The boat is dark and has a tall, thin mast. Several birds are flying in the sky above the boat. In the foreground, the water is dark and reflects the boat and the sky. On the right side, there is a shoreline with some rocks and a few birds standing on the ground. The overall style is impressionistic with visible brushstrokes and a rich, textured color palette of blues, greens, and browns.

# DINNER

STARTING 17:30

**DE WALVISVAARDER**

## The Passage

.. Come into calmer waters

after a long, adventurous

journey. New experiences,

beautiful memories and

wise life lessons richer

While floating, we sail to

our new destination, a quiet

harbor. And make us out

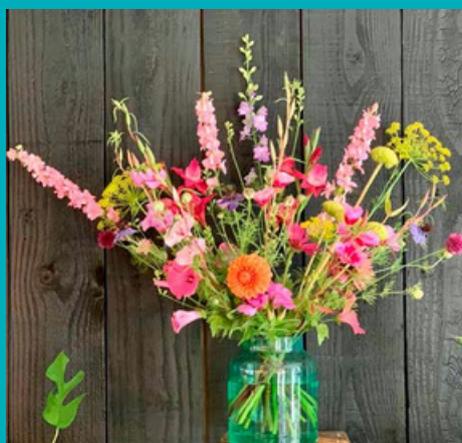

there for a new trip

- Aurelia

Sustainability is very important to us. We have had the Green Key gold label since 2014, the highest achievable quality mark in the global tourism and recreation industry.

We comply with all guidelines that Green Key requires, such as using ecological cleaning products, reducing water use, reducing waste, no minibars in hotel rooms, organic and Fairtrade products, local purchasing, sustainable printing, toilet paper, printing and linen.

Hotel de Walvisvaarder has, a.o.:

- 100% Green Electricity via Terschelling Energie.
- Our gas consumption is fully compensated.
- A sustainable main building with a heat pump, solar boilers and solar panels. Charging points for e-cars.
- Solar charging points for electric bicycles.
- A biodigester for organic kitchen waste (10th company in the Netherlands).

- At the back of our yard is our own biodynamic flower and herb garden where we get our flowers and honey.

- We want to reduce the use of fossil fuels every year towards 2030, with the aim of being climate neutral by 2027.
